

GUM-ND

Characteristics and Benefits

GUM-ND is a high quality product for gumming all positive and negative plates.

- Good spreading on the plate and good protection of the oxide surface
- Easily washable; residue-free
- Good ink trapping of the printing parts
- With buffer ability: possible residues of the Plate Star Developer are compensated
- Activates oxide surface of the plate: the plate runs clean quickly

Preparation

- Dilution 1 + 1 in plate processors
- Ready-to-use for manual application
